

EH "How to"  
Episode 6: How to water relaunch your EZE.

You crashed your kite... Keep the bar orientated so that red is on the left, even though the lines cross.

EH "How to"  
Episode 6: How to water relaunch your EZE.

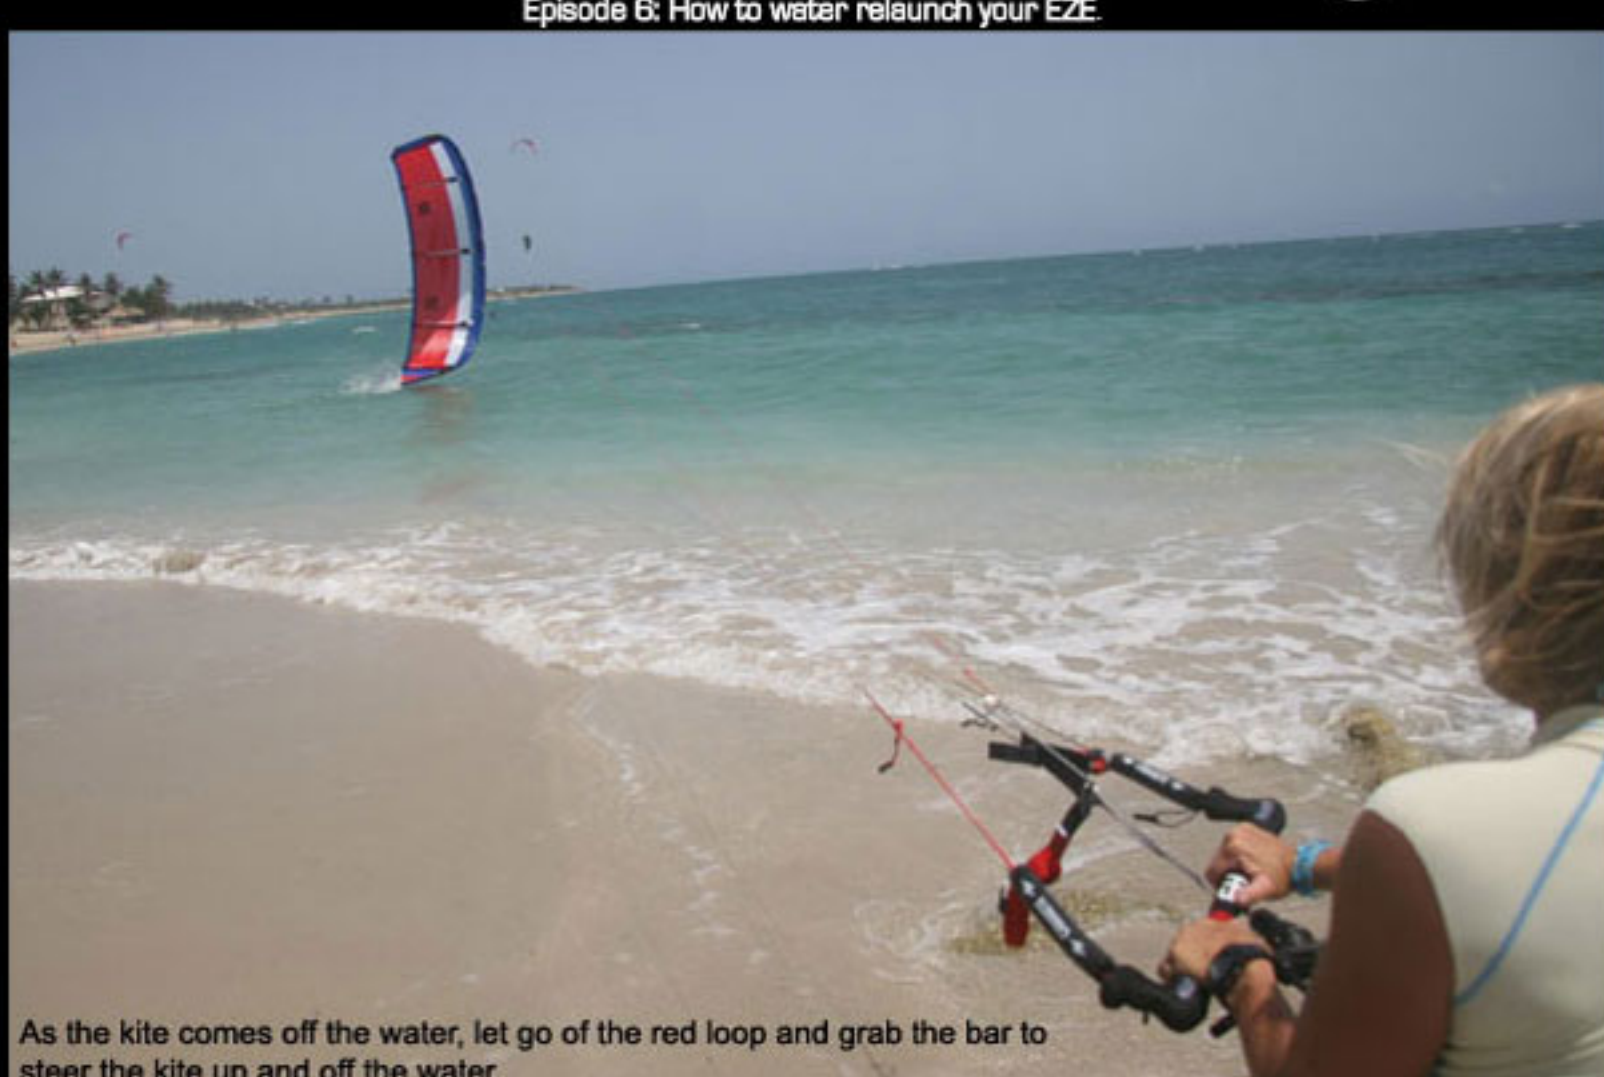

Reach up and grab either red loop on the rear or steering lines. The tip will catch the wind and lift off the water.

EH "How to"  
Episode 6: How to water relaunch your EZE.

Keep pulling on this line and it'll turn the kite into a position whereby it can launch.

EH "How to"  
Episode 6: How to water relaunch your EZE.

As the kite comes off the water, let go of the red loop and grab the bar to steer the kite up and off the water.

EH "How to"  
Episode 6: How to water relaunch your EZE.

The kite is back up and you're ready to go.
